What's been updated in Minga Version 7?

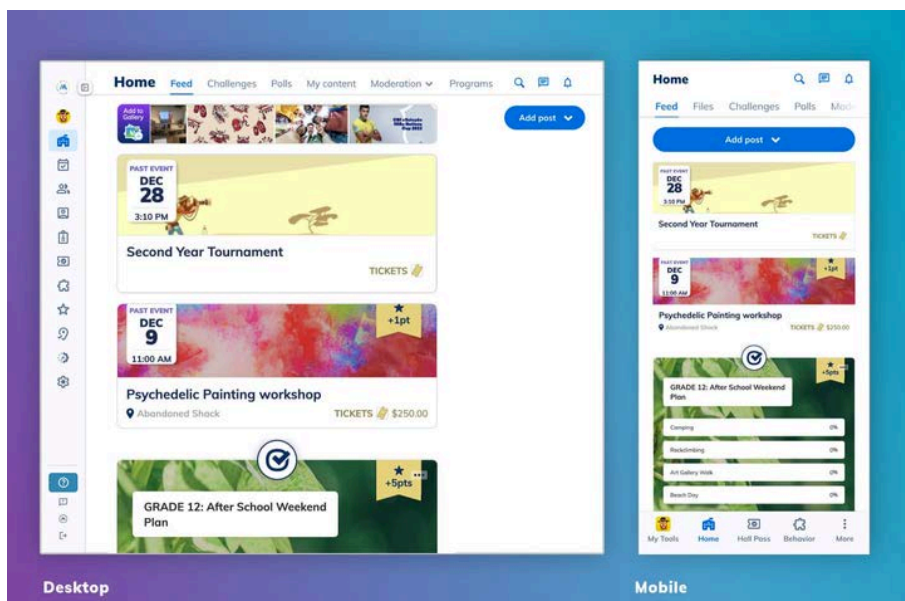

***Released mid-April 2024**

Big news, Minga family! 🎉 Version 7 introduces new features and an enhanced user interface that is designed to give you a smoother, slicker, and more intuitive experience.

Enhanced navigation with side and top menus

- Sleek, redesigned interface for better usability & efficiency
- New, expandable side menu for primary navigation
- Restructuring of the top menu for secondary navigation
- Easier access to various sections within the app
- Reduction in the number of clicks required for navigation means faster user interactions within the app

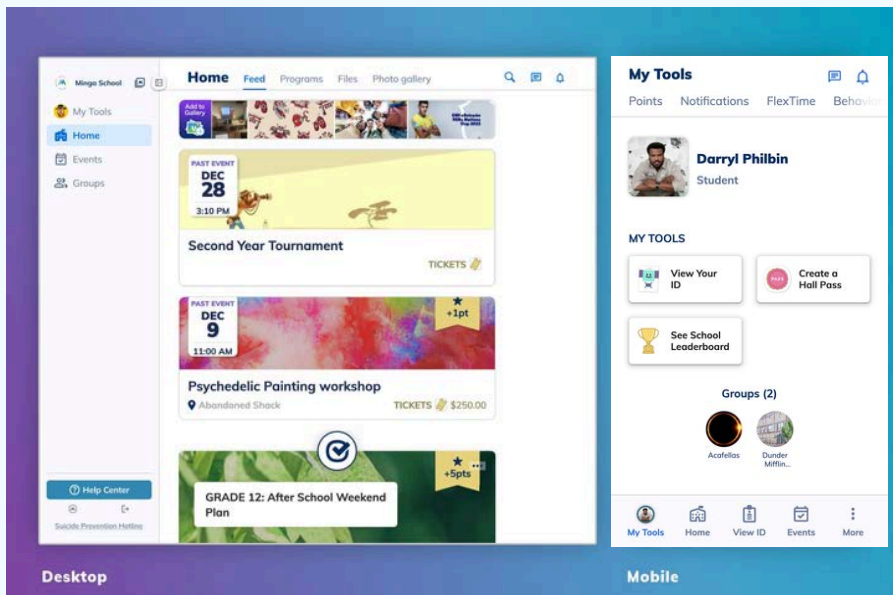

An improved look for teachers and admins

- Optimized for both desktop and mobile
- Extra screen space utilization
- Clearer visibility of features within each module
- Core module workflows and page layouts remain unchanged

Quicker access to IDs for students

- A redesigned menu system gives students more efficient access to student tools
- Quick steps to explore a student's full Minga profile
- Simplified interactions for quicker and more straightforward usage

Updated module icons

- Updated module icons for better clarity
- Influenced by user feedback and analysis of other educational software
- Refreshed icon designs for easier module recognition
- Aids users in navigating the Minga app more effectively
